

# **OPEN HOUSE ~~RE-Scheduled~~**

## **USE OF WASTE TIRES (CRUMB RUBBER) IN HOT MIX ASPHALT PAVEMENT**

An open house will be held to demonstrate the use of crumb rubber in a HMA pavement currently being placed on US 34 in Greeley. This open house is intended to provide information into the design, mixing, plant operation, and placement of crumb rubber in an asphalt pavement. Crumb rubber is being added to the HMA on the project using the terminal blend process and the wet process where blending takes place on site.

Information on the open house is as follows:

When: **Tuesday, August 11, 2009**  
Time: 9:00 AM  
Where: Evans, CO, CDOT Region 4 Resident Engineers Office (directions below)

Agenda: Overview of Project Operations  
Overview of US 34 Construction Project
