Phone:	

Check requested level:

- Level A Laydown Operations
- Level B Plant Materials Control
- Level C Volumetrics & Stability
- Level E Aggregates
- Level S Smoothness

Level	Fee CAPA Member or CDOT	Fee Non CAPA Member
ABC	650	1200
AB	500	910
A	200	420
B	300	510
C	250	490
E	280	535
S	300	550

Certification Prerequisites:

Technicians are required to pre-qualify for their initial certification by level. Required prerequisites include: testing experience, verification of proficiency in lab procedures and liability release.

- Testing Experience for Levels ABCE
A minimum of 60 days of continuous testing experience on HMA is required. Accumulation of time is not allowed. As indicated in CDOT FMM CP-10, inexperienced technicians (less than one year of documented experience) performing testing on HMA should highly consider successful completion of the "Introduction to HMA QC/QA Testing" course offered by the RMAEC.
- Testing Experience for Level S
A minimum of 60 days of continuous testing experience on profiling roadways using the HSP is required. Accumulation of time is not allowed.
- Verification of Proficiency in Lab Procedures as required by level
- Liability Release. Please note, if the testing technician is re-certifying in the requested level, the liability release signature is the only required prerequisite.
