

The RMAEC, training division of the Colorado Asphalt Pavement Association (CAPA),

### Webinar training Schedule

Webinar presenters will include the RMAEC staff, and industry experts from across the country. The "live" webinar training will run 60 - 90 minutes in duration. During the broadcast participants will have the ability to interact with both the presenter and other attendees. However, if your schedule prohibits attendance, you won't miss out. All of the webinars will be recorded, allowing you to log onto the web and view the training at your convenience. Once you register you will be sent a one-time link to the webinar and the call-in number for the live broadcast. You will be able to use the link only once and from only one PC.

- ❑ **MARCH 25, 2010. *Test Result Relationships.*** Quality Control/Quality Assurance - It's more than writing down numbers. This will focus on what a tester/supervisor should look for when doing Quality Control/Quality Assurance. Knowing how erroneous tests results can affect the bottom line of a project. 11:30am MDT
- ❑ **MARCH 31, 2010, *Best Practices for the Compaction of Asphalt Pavements.*** This session will present the Best Practices using Steel wheel and rubber tire rollers for the compaction of Asphalt Pavements. 11:30am MDT This session will be lead by Mr. Todd Mansell, National Expert in Compaction of HMA
- ❑ **April 7, 2010, *Sustainable Asphalt Pavements.*** This session will present information on the use of materials which will assist in creating a sustainable Asphalt Pavement. Items to be discussed will include, RAS, WMA, RAP, Porous Asphalt. 11:30am MDT. This session will be lead by MR. Dave Johnson, P.E. Asphalt Institute. Dave is a National Expert in Asphalt Pavements.
